

MARKET YOUR ABILITIES IN THE HIGHEST MARKET

The first essential of business success is to market your product where it brings the highest

If your services are the product which you are trying to market to the best advantage, you will want to reach the man of affairs, the substantial business man.

You might take a month or so and call on most of the prominent business men of Paducah, but a much quicker and more satisfactory way to place your abilities before them is through the Want Columns of THE SUN.

A newspaper, like water, soon finds its own level. THE SUN is edited, its policy is aimed, for the approval of the best element of the city. That's why it is, and alwas has been; true that

In Paducah More People Read The Sun Than Any Other Paper

Remember this true old saying: If you are willing to work for \$10 a week, there are plenty of people willing to let you. If you want to better your condition, try a three time ad in THE SUN. It will only cost you a few cents and may mean the turning point in your career. Business men are on the lookout for bright young men and women-

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the product. And it had that effect. Doubtless thepromise of the Resublicans four years ago, to steadily nforce the laws against trusts and nonopolies, and to regulate rates of transportation, was the main cause of the large popular majority then given to the Republican ticket.

If there is any retrograde movement by the party this year,it will surely result in loss of confidence and consequent defeat at the polls.

The Republican party is enlisted in his war for commercial and indusrial freedom. And we must nomi, nate a candidate for the Presidency whose heart is in the work; whose experience and ability constitute a guaranty that the war will not be bandoned, but carried on, after the retirement of Mr. Roosevelt, to a sucessful termination

Judge Taft, has been now and for ome years, universally recognized as the President's ablest lieutenant, in the enforcement of the policies of the administrtion. His sincerity and devotion to these policies has never been doubted. The President trusts him absolutely and strongly favors his nomination. His position and knowledge of Judge Taft's character and sentiments certainly enables him to

form a correct judgment. What motive, other than that inspired by the highest patriotism, can he have forfavoring Judge Taft's election? He must soon retire to private life, where he can no longer exercise a controlling infifuence in public affairs. Doubtless his sale motive is, beliving continuation of these policies af vibal importance to the welfare of the country, to see selected as his succesor, one who will continue them until he country shall rest in the confident belief that the rights of all the people to free competition in every branch of trade and commerce, and just rates for transportation, are certainly and irrevocably secured.

The opponents of these policies are numerous and active in both of the great political parties. Those who have formed trusts and combinations in restraint of commerce, and those who have monopolized trade in various lines, those who are engaged in over-capitalizing the "King's High ways" with the purpose of defeating all efforts for the regplation of rates. and their alders and abettors, are ac tively engaged in efforts to control primaries and conventions.

It is for you to consider whether it is wise or prudent, to abandon these policies, and whether it is wise on prudent to select for the Presidency man whose position is unknown of doubtful. In the battle which the President has been waging during the past six years, in behalf of these policies; what has been the position of the opponents? Has any of them (except Mr. Knox. while Attorney General), ever lent him a helping

No man in America is better equipped for the great place than is Judge Taft. Courageous and patriotic, a great lawyer, of wide experinece as an executive officer, and splendfdly successful in all the great affairs confided to his care.
